# About Us

## Delivering Quality Printing and Print Supplies Around Australia

Brandwise began as a print company that specialised in supplying brand compliant printed marketing materials to franchises. We quickly realised that our customers also needed supplies for the things that they printed themselves. We assessed what our customers needed in this area and found that there were 3 key factors that were important to them.

### Advice

Getting professional advice for their outlet or group.

### Speed

Being able to get print and supplies delivered quickly.

### Quality

Getting quality products on a consistent basis.

With these needs in mind we used our experience in the print industry to simplify our clients experience. **Brandwise** supply products you can print with in addition to the products we print for you.

## Our Promise!

We are so confident in our quality of service and products that we have a promise in the three areas that are critical to your satisfaction and peace of mind.

*So if for any reason you are unhappy with the quality of service you have received while working with Brandwise, we are happy to refund your money or replace the goods free of charge immediately, no exceptions.*

### We promise to deliver

- Advice that can save money including alternatives.
- Long term solutions that benefit your organisation now and in the future.
